End of Phase II TransCure Symposium

Honoring the outstanding contributions of
Professors Bruno Stieger, Wilhelm Hofstetter
and Matthias Hediger

11h15 Welcome and introduction

Prof. Hugues Abriel, Director, NCCR TransCure, Institute of
Biochemistry and Molecular Medicine, Bern University
Prof. Hans-Uwe Simon, Dean, Medical Faculty, Bern University

11h30 Targeting bile acids for treatment of cholestatic diseases

Dr. Claudia Fuchs, Hans Popper Laboratory of Molecular
Hepatology, Medical University of Vienna, Vienna, Austria

12h15 Bile formation in health and disease: From SLC to ABC

Prof. Bruno Stieger, Department of Clinical Pharmacology and
Toxicology, University Hospital Zurich

13h00 Lunch break

14h00 Balancing iron metabolism

Prof. Martina Muckenthaler, Head of Molecular Medicine MMPU
Gruppenleiterin, Otto-Meyerhof-Zentrum Heidelberg, Germany

14h45 TransCure helps Bone Cell Biology – Glutamate and Iron and their Contributions to Lineage Development

Prof. Wilhelm Hofstetter, Department for BioMedical Research,
Bern University

15h30 Coffee break

16h00 Pharmacogenomics and epigenetics of drug transporters – clinical implications

Prof. Anne Nies, Dr. Margarete Fischer-Bosch-Institute of Clinical
Pharmacology, Stuttgart, Germany

16h45 Future perspectives of transporter research

Prof. Matthias Hediger, Institute of Biochemistry and Molecular
Medicine, Bern University

17h30 Closing remarks, followed by an apéro

Prof. Hugues Abriel
