

Poster Prizes of the Day of BioMedical Research 2024

Sara Çaku

received the the prize for the Best Preclinical
Project for her poster entitled

[“Characterization of the role of Gas6 protein in
sepsis as a basis for a novel therapy”](#)

Laura Gallucci

received the the prize for the Best Clinical Project
for her poster entitled

[“Early cognitive trajectories after stroke: still
prevalent cognitive impairment despite
neurological recovery”](#)

Jacopo Soldini

received the the prize for the Best Project by a
medical student for his poster entitled

[“Detecting diastolic dysfunction using
cardiovascular magnetic resonance derived E/e”](#)

Siavash Rahimi

received the Stem Cell Project Prize for his poster
entitled

[“Mechanostructural signaling in Pemphigus
vulgaris upon uncoupling of transadhesion”](#)

Janine Lux

received the Alumni MedBern Research Award
for her poster entitled

[“Interspecies peptide hijacks *S. pneumoniae*
transporter to inhibit growth and colonization”](#)

DBMR Prize for Innovative Research Idea 2024

Marc Wehrli

“CAR T cells secreting synthetic proteins
engaging solid tumors”

Anke Augspach

“Establishing the minor spliceosome as an
innovative therapeutic target for breast cancer”

Andrea Felser

“The role of mitochondrial energy metabolism in
adrenal hyperandrogenism: mechanisms and
clinical implications”

Prize for the Best DBMR Publication 2023

Roberta Esposito

["Tumour mutations in long noncoding RNAs
enhance cell fitness"](#)

Published on 06.2023
Nature Communications

Benoît Pochon Prize 2023

Martina Minoli

["Developing new tools for precision medicine in
bladder cancer"](#)

DBMR Technician of 2024 Award

[Kay- Sara Sauter-Etter](#)

Johanna Dürmüller-Bol DBMR Research Award 2024

Andrea Felser

[“The role of mitochondrial energy metabolism in
adrenal hyperandrogenism: mechanisms and
clinical implications”](#)
