

It is with great sorrow that we learned about the death of

## **Professor Robert Friis**

(14. April 1942 – 26. July 2020)

Co-Director Department for Clinical Research (DCR) / Department for BioMedical Research (DBMR) from 1994 – 2001.

As a member of the first team of Co-Directors of the Department, Professor Friis was instrumental in establishing the DCR as the prime research institution of the Medical Faculty enabling the clinical researchers of the University Hospital Bern, Inselspital, to set up their research in a state of the art environment.

The further development of the DCR/ DBMR is living prove for the success and the sustainability of the work of Prof. Robert Friis.

For the DBMR:

Prof. Mark Rubin, Director

Prof. Robert Rieben, Coordinator DBMR/Mu40, Mu50

Prof. Willy Hofstetter, Coordinator DBMR/Mu35, Pathology
